

Product Description and Specification

Name:	Apache Sunset Boulders
Origin:	Southern California quarry
Geology:	Limestone quartzite
Color:	Predominately a gold - tan boulder with other lesser colors
Description:	Apache Sunset Rock, also known as Honey Quartz, is a very hard rock material that is a gold colored rock covered in full or in patches with a mineral patina that varies from burnt yellow, orange, red, and purple tones, Apache Sunset is an excellent value. For boldly colored landscape boulders this rock is right there with Mohave Sunset or Baja Cresta boulders. In fact, these materials complement each other very well in water and landscape features when mixed together.

Descripción:

Apache Sunset Rock, también conocido como Honey Quartz, es un material de roca muy dura que es una roca de color dorado cubierta en su totalidad o en parches con una pátina mineral que varía de tonos amarillos quemados, naranjas, rojos y morados, Apache Sunset es un valor excelente. Para cantos rodados de paisajes de colores llamativos, esta roca es adecuada allí con cantos rodados Mohave Sunset o Baja Cresta. De hecho, estos materiales se complementan muy bien en las características del agua y del paisaje cuando se mezclan.

Size:

Commonly available from 12 inches through 4 feet, specimens through 6 feet

Transportation:

Large orders shipped in End-dump and Super 10 trucks. Smaller orders shipped on flatbeds
