

## Product Description and Specification

<b>Name:</b>	Barkwood Landscape Boulders
<b>Origin:</b>	Central Arizona quarry
<b>Geology:</b>	Schist Rock
<b>Color:</b>	Natural dark brown colors contrasted with splashes of deep red and green tones.
<b>Description:</b>	<p>It is Schist Rock, also known as Table Mesa Brown. Barkwood Rock is large rock material that is among the most sought after and unique landscape materials in the USA. The most exciting and unique characteristic of Barkwood Rock materials from 3/4" through the rubble and boulders is the petrified wood appearance of the rock. Barkwood boulder is a big hard rock that is a bold brown in color but highlighted with splashes of deep red and green tones. A pink-tinted granite-like appearance also brings a delightful mix of color and contrast to each rock. Barkwood boulder, being a schist rock, is not suitable for water features.</p>

**Descripción:** Barkwood Rock es un material rocoso de gran tamaño que se encuentra entre los más buscados y materiales paisajísticos únicos en los EE.UU. Lo más emocionante y único. característica de los materiales de Barkwood Rock desde 3/4" a través de los escombros y cantos rodados es la apariencia de madera petrificada de la roca. La roca de Barkwood es una gran roca dura de color marrón intenso pero resaltada con toques de tonos rojos y verdes intensos. Una apariencia de granito teñida de rosa. también aporta una deliciosa mezcla de color y contraste a cada roca. La roca de Barkwood, al ser una roca de esquisto, no es adecuada para elementos acuáticos.

**Size:** Commonly available from 12 inches through 3 feet.

**Transportation:** Large orders shipped in End-dump and Super 10 trucks. Smaller orders shipped on flatbeds
