

Product Description and Specification

Name:	Catalina Cove Green Boulders
Origin:	Central California quarry
Geology:	Quartzite stone
Color:	Grey-green
Description:	<p>Central California quarry producing a wide range of materials from DG fines to very large boulders.</p> <p>Materials are shipped bulked 18 to 24 throughout Southern and Central California and smaller amounts on pallets anywhere requested. Have you ever been to Catalina Island? Do you remember the beautiful blue-green ocean waters along shorelines? Well take a step back into memory lane of traveling along the shoreline of Santa Catalina Island with these rich ocean green landscape boulders. Catalina Cove Boulders often arrive more grey-green than true green. The minerals in the rock will oxidize in the sunlight over time and the whole rock will turn to a true light to medium green color.</p>

Descripción:

Cantera en el centro de California que produce una amplia gama de materiales, desde finos de gran tamaño hasta grandes bloques. Los materiales se envían a granel (18 a 24) a todo el sur y centro de California, y cantidades más pequeñas en palés a cualquier lugar que se solicite. ¿Has estado alguna vez en la Isla Catalina? ¿Recuerdas las hermosas aguas azul verdosas del océano a lo largo de la costa? Viaja al pasado y rememora la costa de la Isla Santa Catalina con estos ricos bloques de paisaje verde océano. Los bloques de la Caleta Catalina suelen presentar un color más gris verdoso que verde puro. Los minerales de la roca se oxidan con la luz solar con el tiempo y la roca adquiere un color verde claro a medio.

Size:

Commonly available from 12 inches through 4 feet, specimens through 6 feet

Transportation:

Large orders shipped in End-dump and Super 10 trucks. Smaller orders shipped on flatbeds
