

Product Description and Specification

Name:	Desert Gold Granite River Washed Boulders
Origin:	Southern California quarry
Geology:	Granitic
Color:	Rich gold, brown and copper color
Description:	These boulders come from ancient alluvial rivers and are gold to tan color. Some boulders have more rich gold, brown and copper colors to them than others. These boulders have very smooth surfaces and are the ideal material for creating wet or dry creek beds. Great for use in swimming pool construction and building waterfalls.

- Descripción:** Estos cantos rodados provienen de antiguos ríos aluviales y son de color dorado a tostado. Algunas rocas tienen colores dorados, marrones y cobrizos más ricos que otras. Estos cantos rodados tienen superficies muy lisas y son el material ideal para crear lechos de arroyos húmedos o secos. Ideal para usar en la construcción de piscinas y cascadas.
- Size:** Commonly available from 12 inches through 4 feet, specimens through 6 feet
- Transportation:** Large orders shipped in End-dump and Super 10 trucks. Smaller orders shipped on flatbeds
