

Product Description and Specification

Name:	Stripe n Swirl Granite Boulders aka Desert Marbled Boulders
Origin:	California quarry
Geology:	Granitic
Color:	Pale white to light pink colors with unique stripe and swirl signature patterns
Description:	<p>These boulders are harvested and shipped from regionally located quarries. Material is shipped bulk, palletted, and specimens on lowbeds throughout California and other states. Stripe and Swirl Granite Boulders have very distinctive white quartz bands that pattern the rock. These specimen boulders are hand-picked by us from the large masses of 1000's tons of boulders at quarries.</p> <p>The rock material varies from pale white to light pink colors, but all have unique one of kind stripe and swirl signature patterns the rock.</p> <p>These boulders and cobbles are available as basted irregular granite or river washed smooth surface granite boulders. The boulders come in various shapes and sizes ranging from 18" in diameter to 60" and larger.</p> <p>Small boulders are easily moved with basic hand pushed landscape equipment. Most boulders that are 3 feet or smaller can be easily handled by 2 or 3 healthy men or a small tractor.</p>

Description: Work with boulders larger than 3 feet is likely to include some use of a tractor and skilled landscape construction staff. We offer boulder placement and equipment operating services in many locations, contact us for more information.

Descripción: Estos cantos rodados se extraen y se envían desde canteras regionales. El material se envía a granel, en palés y en muestras en plataformas bajas por toda California y otros estados. Los cantos rodados de granito con franjas y remolinos presentan bandas de cuarzo blanco muy distintivas que marcan la roca. Estos cantos rodados son seleccionados a mano por nosotros de grandes cantidades de miles de toneladas de cantos rodados en canteras. El material rocoso varía de blanco pálido a rosa claro, pero todos presentan patrones únicos de franjas y remolinos.

Estos cantos rodados y guijarros están disponibles como granito irregular hilvanado o cantos rodados de superficie lisa, lavados por el río. Los cantos rodados vienen en diversas formas y tamaños, desde 45 cm de diámetro hasta 152 cm o más. Los cantos rodados pequeños se mueven fácilmente con equipo básico de jardinería manual. La mayoría de los cantos rodados de 90 cm o menos pueden ser manipulados fácilmente por dos o tres personas sanas o un tractor pequeño. El trabajo con rocas de más de 90 cm probablemente requiera el uso de un tractor y personal especializado en paisajismo. Ofrecemos servicios de colocación de rocas y operación de equipos en diversas ubicaciones. Contáctenos para más información.

Size: Commonly available from 12 inches through 4 feet, specimens through 6 feet.

Transportation: Large orders shipped in End-dump and Super 10 trucks. Smaller orders shipped on flatbeds
