

Product Description and Specification

| | |
|---------------------|--|
| Name: | Honey Quartz Landscape Boulders |
| Origin: | Southern California quarry |
| Geology: | Limestone quartzite |
| Color: | Predominately a gold - tan boulder with other lesser colors |
| Description: | Honey Quartz Boulders, also known as Apache Sunset , is a very hard rock material that is a gold colored rock covered in full or in patches with a mineral patina that varies from burnt yellow, orange, red, and purple tones, Honey Quartz is an excellent value. For boldly colored landscape boulders this rock is right there with Mohave Sunset or Baja Cresta boulders. In fact, these materials complement each other very well in water and landscape features when mixed together. |

Descripción:

Honey Quartz, también conocido como Apache Sunset, es un material de roca muy dura que es una roca de color dorado cubierta en su totalidad o en parches con una pátina mineral que varía de tonos amarillos quemados, naranjas, rojos y morados, Honey Quartz es un valor excelente. Para cantos rodados de paisajes de colores llamativos, esta roca es adecuada allí con cantos rodados Mohave Sunset o Baja Cresta. De hecho, estos materiales se complementan muy bien en las características del agua y del paisaje cuando se mezclan.
