

Product Description and Specification

Name: Malibu Landscape Boulders

Origin: Southern California quarry

Geology: Sandstone

Color: Tan brown

Description: Malibu landscape boulders are a tan brown sandstone blend into coastal and coastal inland Southern and Central California landscapes. A great boulder material when you want to medium to large boulders to be an integral part of the landscape design. An impressive stone that works well in water features or as an accent piece in a garden landscape. These majestic rock formations boast a variety of rock types, each displaying a mesmerizing array of colors and textures. Weathered by time and the gentle caress of the ocean, their surfaces tell tales of ancient wisdom and resilience. The colors dance with the sunlight, ranging from warm siennas to burnt umbers, while delicate touches of ochre and sandy beige add depth to the spectacle.

Descripción:

Las rocas paisajísticas de Malibú son una arenisca marrón tostado que se integra perfectamente en los paisajes costeros e interiores del sur y centro de California. Un material ideal para rocas de tamaño mediano a grande que se integran perfectamente en el diseño del paisaje. Una piedra impresionante que combina a la perfección con fuentes de agua o como elemento decorativo en un jardín. Estas majestuosas formaciones rocosas cuentan con una variedad de tipos de roca, cada una con una fascinante gama de colores y texturas. Desgastadas por el tiempo y la suave caricia del océano, sus superficies narran historias de sabiduría ancestral y resiliencia. Los colores, desde cálidos sienas hasta tonos tierra tostados, danzan con la luz del sol, mientras que los delicados toques de ocre y beige arena añaden profundidad al espectáculo.

Size:

Commonly available from 12 inches through 4 feet, specimens through 6 feet

Transportation:

Large orders shipped in End-dump and Super 10 trucks. Smaller orders shipped on flatbeds
